POLICY 680.OR

WELLNESS POLICY

The Regina Catholic Education Center Board of Education promotes healthy students by supporting wellness, good nutrition and regular physical activity as a part of the total learning environment. Regina supports a healthy environment where students learn and participate in positive dietary and lifestyle practices. By facilitating learning through the support and promotion of good nutrition and physical activity, schools contribute to the basic health status of students. Improved health optimizes student performance potential.

Regina provides a comprehensive learning environment for developing and practicing lifelong wellness behaviors. The entire school environment, not just the classroom, shall be aligned with healthy Regina goals to positively influence a student's understanding, beliefs and habits as they relate to good nutrition and regular physical activity.

Regina will develop a local wellness policy committee comprised of representatives of the board, parents, leaders in food/exercise authority and employees. The local wellness policy committee will develop a plan to implement and measure the local wellness policy and monitor the effectiveness of the policy. The committee will designate an individual to monitor implementation and evaluation the implementation of the policy. The committee will report annually to the board regarding the effectiveness of this policy.

Specific Wellness Goals

- Regina will provide nutrition education and engage in nutrition promotion that:
- is offered as part of a program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- is part of not only health classes, but also classroom instruction in subjects such as math, science, language arts, social sciences and elective subjects;
- promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products, healthy food preparation methods and health-enhancing nutrition practices;
- emphasizes caloric balance between food intake and physical activity;
- links with meal programs, other foods and nutrition-related community services; and,
- includes training for teachers and other staff.

Specific goals for physical activity:

Physical Education

Regina will provide physical education that:

- gathers a baseline assessment of student fitness each year;
- is for all students in grades K-12 for the entire school year;
- is taught by a certified physical education teacher;
- engages students in moderate to vigorous activity during at least 50 percent of physical education time.

Daily Recess

Elementary schools should provide recess for students that:

- is at least 20 minutes a day;
- is preferably outdoors;
- encourages moderate to vigorous physical activity verbally and through the provision of space and equipment; and,
- discourages extended periods (i.e., periods of two or more hours) of inactivity.

BOARD OF EDUCATION**

POLICY 680.0R

When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

Physical Activity and Punishment

Employees should not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment.

Optional Issues

Physical Activity Opportunities after School

After-school child care and enrichment programs will provide and encourage—verbally, and through the provision of space, equipment and activities—daily periods of moderate to vigorous physical activity for all participants.

Other school-based activities that are designed to promote student wellness

Integrating Physical Activity into Classroom Settings

For students to receive the nationally recommended amount of daily physical activity and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond the physical education class. Toward that end, Regina will:

- offer classroom health education that complements physical education by reinforcing the knowledge and self-management skills needed to maintain a physically active lifestyle and to reduce time spent on sedentary activities;
- discourage sedentary activities, such as watching television, playing computer games, etc.;
- provide opportunities for physical activity to be incorporated into other subject lessons; and,
- encourage classroom teachers to provide short physical activity breaks between lessons or classes, as appropriate.

Communication with Parents

Regina will support parents' efforts to provide a healthy diet and daily physical activity for their children. Regina will:

- send home nutrition information, post nutrition tips on school web sites and provide nutrient analyses of school menus;
- encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the established nutrition standards for individual foods and beverages;
- provide parents a list of foods that meet Regina's snack standards and ideas for healthy celebrations/parties, rewards and fundraising activities;
- provide information about physical education and other school-based physical activity opportunities before, during and after the school day;
- support parents' efforts to provide their children with opportunities to be physically active outside of school; and,
- include sharing information about physical activity and physical education through a web site, newsletter, other take-home materials, special events or physical education homework.

POLICY 680.0R

Staff Wellness

Regina values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. Each school should:

- establish and maintain a staff wellness committee;
- develop, promote and oversee a multifaceted plan to promote staff health and wellness developed by the staff wellness committee;
- base the plan on input solicited from employees and outline ways to encourage healthy eating, physical activity and other elements of a healthy lifestyle among employees.

The nutrition guidelines for all foods available will focus on promoting student health and reducing childhood obesity at Regina.

PLAN FOR MEASURING IMPLEMENTATION

Monitoring

The administrative team will ensure compliance with established school-wide nutrition and physical activity wellness policies. In each school:

- the principal will ensure compliance with those policies in the school and will report on the school's compliance to the administrative team; and,
- food service staff, at the school level, will ensure compliance with nutrition policies within food service areas and will report on this matter to the administrative team.

In Regina:

- Regina will report on the most recent USDA School Meals Initiative (SMI) review findings and any resulting changes;
- the administrative team will develop a summary report every three years on school compliance with Regina's established nutrition and physical activity wellness policies;; and,
- the report will be provided to the school board and also distributed to all school wellness committees, parent/teacher organizations, and principals.

Policy Review

To help with the initial development of Regina's wellness policies, each school in Regina will conduct a baseline assessment of the school's existing nutrition and physical activity environments and practices. The results of those school-by-school assessments will be compiled at school level to identify and prioritize needs.

Assessments will be repeated every three years to help review policy compliance, assess progress and determine areas in need of improvement. As part of that review, Regina will review the nutrition and physical activity policies and practices and the provision of an environment that supports healthy eating and physical activity. Regina will revise the wellness policies and develop work plans to facilitate their implementation.

Appendix A

NUTRITION GUIDELINES FOR ALL FOODS AVAILABLE ON CAMPUS

School Meals

Meals served through the National School Lunch and Breakfast Programs will:

- be appealing and attractive to children;
- be served in clean and pleasant settings;
- meet, at a minimum, nutrition requirements established by state and federal law;
- offer a variety of fruits and vegetables;
- serve only low-fat (1%) and fat-free milk and nutritionally equivalent non-dairy alternatives; and,
- ensure that half of the served grains are whole grain.

Schools should:

- engage students, through taste-tests of new entrees and surveys, in selecting foods offered through the meal programs in order to identify new, healthful and appealing food choices; and
- share information about the nutritional content of meals with parents and students;
- encourage Family and Consumer Science and Health students to participate in planning school meals that meet guidelines.

Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn, schools will:

- operate the breakfast program, to the extent possible;
- arrange bus schedules and utilize methods to serve breakfasts that encourage participation, “grab-and-go” breakfasts or breakfast during morning break or recess, to the extent possible;
- notify parents and students of the availability of the School Breakfast Program, where available; and,
- encourage parents to provide a healthy breakfast for their children through newsletter articles, take-home materials or other means.

Free and Reduced-Priced Meals

Regina will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price meals. Toward this end, Regina may:

- utilize electronic identification and payment systems;
- promote the availability of meals to all students.

Meal Times and Scheduling

Regina:

- will provide students with at least 10 minutes to eat after sitting down for breakfast and 15 minutes after sitting down for lunch;
- should schedule meal periods at appropriate times; should not schedule tutoring, club or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- will make efforts to schedule lunch periods to follow recess periods (in elementary schools);

**DIOCESE OF DAVENPORT
BOARD OF EDUCATION**

POLICY 680.0R

- will provide students access to hand washing or hand sanitizing before they eat meals or snacks; and,
- should take reasonable steps to accommodate the tooth-brushing regimens of students with special oral health needs (e.g., orthodontia or high tooth decay risk).

Qualification of Food Service Staff

Qualified nutrition professionals will administer the meal programs. As part of Regina's responsibility to operate a food service program, Regina will:

- provide continuing professional development for all nutrition professionals; and,
- provide staff development programs that include appropriate certification and/or training programs for nutrition managers and cafeteria workers, according to their levels of responsibility.

Sharing of Foods

Regina discourages students from sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Foods Sold Outside the Meal (e.g. vending, a la carte, sales)

All foods and beverages sold individually outside the reimbursable meal programs (including those sold through a la carte [snack] lines, vending machines, student stores or fundraising activities) during the school day, or through programs for students after the school day will meet nutrition standards as required by state or federal law.

Fundraising Activities

There are two types of fundraising – regulated and other. Regulated fundraisers are those that offer the sale of foods or beverages on school property and that are targeted primarily to PK-12 students by or through other PK-12 students, student groups, school organizations, or through on-campus school stores. Regulated fundraising activities must comply with the state nutrition guidelines. All other fundraising activities are encouraged, but not required, to comply with the state nutrition guidelines if the activities involve foods and beverages.

Regina encourages fundraising activities that promote physical activity. Regina will make available a list of ideas for acceptable fundraising activities.

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of meals, children's nutritional needs, children's ages and other considerations. Regina will disseminate a list of healthful snack items to teachers, after-school program personnel and parents.

If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

POLICY 680.0R

Rewards

Regina will limit the use of foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually, as rewards for academic performance or good behavior, and will not withhold food or beverages (including food served through meals) as a punishment.

Celebrations

Schools should evaluate their celebrations practices that involve food during the school day. Regina will disseminate a list of healthy party ideas to parents and teachers.

School-Sponsored Events

Foods and beverages offered or sold at school-sponsored events outside the school day are encouraged to meet the nutrition standards for meals or for foods and beverages sold individually.

Food Safety

All foods made available on campus adhere to food safety and security guidelines.

- All foods made available on campus comply with the state and local food safety and sanitation regulations. Hazard Analysis and Critical Control Points (HACCP) plans and guidelines are implemented to prevent food illness in schools.
http://www.fns.usda.gov/tn/Resources/servingsafe_chapter6.pdf

For the safety and security of the food and facility, access to the food service operations are limited to child nutrition staff and authorized personnel.
