

11th Grade Registration Information for 2021-2022

We are so excited to plan for another school year. Every spring and summer our administration works diligently to create a schedule that works for each student.

This year, we will use this document to share information. DO NOT return this paper to us. This is just a tool to use in the planning process. The student will first select their classes online through JMC. Once selected, then the office will print off the student’s schedule to be sent home. The parent/guardian and the student should discuss if the chosen classes are right for them. Once approved, the parent/guardian should sign the form.

Please return the signed form, along with the annual \$100 registration fee no later than February 26th, 2021.

General information:

- There are 8 class periods. Students must have 7 of the 8 class periods filled with academic courses each semester. An academic course is defined as a course where students can earn credit. The remaining 1 class period can be filled with learning center time, study hall late arrival or early release. Students can have all 8 class periods filled with academic coursework.
- Most classes are scheduled for both A and B days. Psychology and PE are courses on an alternating day schedule (i.e. Psychology on A days and PE on B days) throughout both semesters.
- The *Course Description Guide at Regina.org* is available to review the full course descriptions, typical sequences and additional information.
- This registration request process allows Regina to best plan for teacher and section numbers. It is important to register for the classes you intend to take. Course offerings may change based on student interest and teacher availability.
