

PARENT COMMUNICATIONS

JMC Emergency Notification System –This system is used for School Closing, Late Arrival, Early Dismissal, and other important notification messages.

JMC’s Emergency Notification System utilizes phone, emails and text messaging. The contact information you enter during the Regina on-line school registration through JMC will be used by the system when a situation arises. It is important to keep contact information current in JMC so the Emergency Notification System is using the most up to date information. All contact information must be complete in JMC.

Constant Contact – Regina uses Constant Contact as a way of communicating about school information, events or activities through “opt-in” emails. Parents and students need to select or update their “List Selections” to receive emails relating to areas of interest. A Class List has been created for each graduating class/grade level (Class of 2030, Class of 2032, etc.), please make sure to select the class list for your student(s), as well as their school level (Preschool, Elementary, Junior High or High School). Also, we suggest that you select the list “Regal Weekly” as that is our weekly center wide e-newsletter. This includes weekly lunch menus, important calendar dates, important activities, and events happening that week or coming up throughout the entire campus.
