

**Carline** is our after school pick up for students riding in a vehicle. Carline will run more smoothly with practice in the coming few weeks. Please be patient and use these guidelines:

## SMITH

Please have your sign with your last name displayed in the right corner of the dashboard or hanging from the visor. Use bold letters to aid teachers in identifying cars from a distance.

Follow the driveway around the **back** school parking lot. Within that circle driveway, pull ahead so vehicles can line up two by two.

Pull your vehicle all the way to the vehicle in front of you when you park. Stopping spaces will be numbered. Students will enter the vehicle on the right side.

Please stay in the vehicle. Teach your student how to buckle themselves.
